

TECH EXHIBITION

April 4
11:00 AM Onwards

**Sunderdeep Engineering
College, SDGI Global University
Ghaziabad, Uttar Pradesh**

codingclub@sunderdeep.ac.in

RULES

- 1. Project Showcase:** Each participating team or individual will have a designated area to present their project.
- 2. Project Descriptions:** Participants must provide concise and clear descriptions of their projects. These descriptions should cover the following aspects:
 - a) Objective:** What problem does the project aim to solve or what purpose does it serve?
 - b) Implementation:** Explain the technologies, tools, and methodologies used.
 - c) Innovation:** Highlight any unique features or creative solutions.
 - d) Impact:** Discuss the potential impact or real-world applications.
- 3. Live Demos:** Teams should be prepared to demonstrate their projects in action. Live demos add an interactive element and allow visitors to experience the project firsthand.
- 4. Q&A Sessions:** Visitors and judges may have questions. Participants should be ready to answer inquiries related to their projects. Encourage engaging discussions!
- 5. Judging Criteria:**
 - i) Innovation:** How novel and creative is the project?
 - ii) Functionality:** Does the project work as intended?
 - iii) Usability:** Is the interface user-friendly?
- 6. Technical Depth:** Assess the depth of technical knowledge applied.
- 7. Presentation:** Evaluate clarity, confidence, and communication skills during the presentation.
- 8. Networking:** Encouraging participants to interact with fellow students, faculty, and industry professionals. Networking can lead to valuable connections and feedback.
